

**Experiment 9 Week 9 Sunspot Analysis**

**The following experiment is to be completed by the Saturday of Week 9 at 11:59 pm.**

- 1) Complete all parts of the experiment file: Sunspot Analysis.pdf Answer all questions as directed in the experiment file.
- 2) For the data, please use Sunspot Numbers.pdf
- 3) There is also another graph paper you can use in this module, to make the required graph. Start your graphing in the year 1950, and use 2017 as the last year on your graph.

Experiment Submission:

- 1) Type up a Word document that contains the title, “PH114AL Experiment 9”, and your name and answers of this experiment. Also upload your images of your graphs sketches to the drop box.
- 2) Submit this experiment using the procedure outlined in the course introduction.

Save Experiment 9 as a Word document titled with your name and the words “Experiment 9” (e.g. Mike's Experiment 9) and upload the document to the assignment link. Also upload your images to the drop box.
