

CA3417 Management for construction (2017-2018 Semester B)

Coursework

Individual term paper (20%):

In view of the recent prosperity of the construction industry in Hong Kong, a construction consultant needs to maintain and expand the current human resources, especially the young generation of professional grade, to cope with the future business expansion in Hong Kong and adjacent regions. Propose your strategy to manage the human resources in this situation. (Expected length of main text: 800-1500 words)

Requirements:

- Provide reference, in proper and consistent style, to the idea or information (including text, chart or graphic) of each source (e.g. books, articles, internet, etc.) that you have used in your work.
- Paper format: printed in A4 size, text font 12, 25mm margins, single line spacing.
- Provide assignment cover page with information: course title, course code, name of the teaching staff, student full English name, student ID
- The hardcopy of the assignment shall be stapled on the top left hand corner; No plastic covers; No plastic binding edge and etc.
- A hardcopy of your assignment shall be submitted on or before 4th April 2018, 5:00pm., by dropping it into a collection box located outside the General Office of the Department of Architecture and Civil Engineering, AC-1 Room B6322, on 6/F of Blue Zone.
- You are required to retain a softcopy (in MSWord format) of your submitted assignment until the end of Jun 2018. The softcopy may be required to submit upon the call from the teaching staff and be checked by plagiarism detection softwares. Students who cannot provide the softcopy promptly may be subject to the mark deduction.
- Late/non-submission is subject to the penalties stipulated in the Course Outline.
- A submission which does not conform to the above requirements will be subject to the mark deduction.
