### My Classic and Private Room

The best place for me to be is in my quiet and cheerful bedroom. As I lay across my bed I see the bright colors that compensates the bed clothing. This mood is just right for reading a book while lying in bed admiring the beautiful lighting. During the morning I can listen to the birds in the tree singing, and feel the fresh air flowing throughout the bedroom window. I'm drowning in the luxurious and rich smell of the flowers that surround my window. Often there are times where I had drunk a tall glass of wine sitting in the comfort of my secluded private room. While in there, near the night stand is where my record player, plays the soft sound of jazz. This room bring joy to my soul. It also reminds me of some of the good times with my aunt of listening to the music, all the small talk we share, and playing games. In closing, my bedroom is my own little mini hide out when I'm in need of some me time.
